**RE: Recreational/Adult-Use
Retailer and Microbusiness
License Limitations**

The City of Cedar Springs has amended its Recreational/Adult-Use marijuana ordinances to include limits on the number of permitted Retailer Licenses and the number of permitted Microbusinesses. This decision was made after 10 months of a limiting moratorium of not accepting or processing more than seven (7) Retailer license applications.

The City will only grant up to seven (7) Retailer Licenses and one (1) Microbusiness License of any class or type. Of those seven (7) Retailer Licenses, four (4) are required to be located in the B2/B3 zoning districts and three (3) of those licenses are required to be located in the HC Highway Commercial zoning district. As of current, all seven (7) of the Retailer licenses and the one (1) Microbusiness license have been spoken for and each are in various stages of development.

The City will not be accepting any new Retailer or Microbusiness license applications, zoning permits, site plan applications or special land use applications and will not be maintaining and kind of waiting list.

If any Retailer or Microbusiness license becomes available for whatever reason, the City will accept applications for that available license on a first come first served basis and will strive to make that availability generally known as quickly as possible.

Grower licenses of all classes, excess grower licenses, processor licenses and safety compliance facility licenses all remain unlimited, subject to zoning requirements.

If you have any thoughts, questions or concerns about this change in the law, please contact the City Manager with the contact information below.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Womack", is written over a horizontal line.
